REQUEST FOR PROPOSAL

Dear Community Provider,

Circle of Care for Families and Children of Passaic County (COC) provides care management services to children and youth experiencing emotional, behavioral, developmental, intellectual, and substance use needs, and to their families. As part of our contract with the New Jersey Children's System of Care (CSOC), COC has access to funds designated for one time use by community organizations to promote and develop new, additional, and/or unique resources addressing an unmet or under-served need in Passaic County.

This letter serves as a "Request for Proposals" (RFP) to support the development, enhancement and/or expansion of the availability of community-based resources that reduce risks to child and youth well-being and promote their safety, health, and connections at home and in the community in Passaic County.

A maximum total of \$125,000 is available to fund one or more projects. This funding is available for the period of 9/1/21 to 6/30/22. Funding is not intended to purchase services for specific individuals or families, but rather, to support new or existing activities or services through collaboration with community partners.

Projects that address the following needs will be considered (in no specific order):

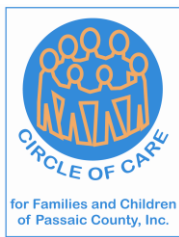

- Prevention programs to deter youth from juvenile justice system involvement or re-offending.
- Community based mentoring, accessible without system (DCPP, CMO, legal) involvement for at risk youth.
- After-school programs that provide recreational and psycho-education opportunities for youth.
- Programming that supports teens in their efforts to transition to adulthood, such as career readiness, etc.
- Programming that targets the prevention of substance use while engaging both youth and parents.

This funding solicitation reflects current needs of youth in Passaic county, as well as youth served by Passaic County's Children's System of Care and the NJ Children's System of Care Community Resource Development (CRD) funding guidelines.

Collaborative applications that maximize the impact of these funds are encouraged as well as projects that include family participation. The overall goal of this RFP is twofold: to develop and/or increase the availability of resources to Passaic County youth and their families; and to increase positive outcomes.
